SchoolExl

SUMERU EDUTECH

AI that knows the Guyanese classroom, connected or not.

Curriculum-aligned, voice-enabled AI tutoring & marking that works offline, reaching every region—from Georgetown to Regions 1, 7, 8 and 9.

Trusted in the Caribbean ·
MoU with the Government of Jamaica

The opportunity in Guyana

59.8%
of NGSA candidates scored 50%+ in Mathematics (2026). About 4 in 10 still need support.

34.5%
CSEC Mathematics pass rate (2026), which the Ministry is responding to with a maths task force

146
ICT hubs built in the hinterland. SchoolExl turns that connectivity into daily learning.

AI for every school, connected or not

Offline AI Tablet
Full AI tutoring on the device, no internet needed.

AI Smart Speaker
Voice-first, screen-free learning with Tutor, Science Buddy, Language Coach, Wellness, Story and Quiz Master.

Offline AI Labs
Powered by Intel, one system runs four complete learner stations, with SchoolExl fully offline.

SchoolExl at a glance

1300+ Schools

160+ languages, tuned for regional accents

>98%+ Making accuracy

65% Less teacher workload

82% higher student retention

19 modules for 4 audiences

Each school's own Guyana syllabus and textbooks are loaded once. Every answer, drill and revision plan then matches what is taught in class, so there is no generic chatbot content.

Built around Guyana's education priorities

- **Numeracy first:** Daily adaptive maths practice from Grade 2, supporting early numeracy and Grade 2 & 4 assessments.
- **NGSA ready:** Practice in English, Mathematics, Science and Social Studies, with step-by-step help on every wrong answer.
- **CSEC and CAPE confidence:** Mock exams, spaced revision and on-device marking of short and long answers.
- **Hinterland reach:** Works offline and syncs through school or community ICT hubs.
- **Complements national platforms:** Runs alongside the Guyana Digital School and Guyana Learning Channel.

Built for classrooms, not borrowed from chatbots

Our own AI models · Data stays home · Classroom guardrails · FERPA/COPPA, GDPR &SOC 2 aligned

SchoolExl

Proven in the Caribbean

SchoolExl's MoU with the Government of Jamaica supports nationwide PEP and CSEC preparation. The same platform adapts to Guyana's syllabus and coastal, riverine and hinterland schools, and to Trinidad and Tobago's SEA and CSEC needs.

What changes in one term

For the Ministry
Real-time mastery and exam readiness data by school, region and grade, enabling timely support before exams.

For teachers
Lesson plans in 30 seconds, automated marking and a daily "who needs help first" list.

For students
A 24/7 personal tutor at school or at home, with or without internet.

For parents
A plain-English weekly report and simple ways to help at home.

Accurate Marking
>98%+ accuracy across key exam & partial marks.

Real-time visibility
School & ministry dashboards show mastery & readiness.

Personalised learning
AI tutor adapts to every student's pace and style.

PEP & CSEC readiness
Adaptive drills, mock tests & spaced revision on local syllabuses.

Every mind in the room, connected

For Students
Exam prep (NGSA + long answers)" to "NGSA, CSEC and CAPE practice

For Teachers
keep "Up to 80% time saved" only if you can source it

For Parents
change "Weekly progress report" to "Weekly progress report in plain English"

For Schools & Ministries
Exam prep (NGSA + long answers)" to "NGSA, CSEC and CAPE practice

A pilot in one school term

One coastland and one hinterland school, selected with the Ministry and Regional Education Office.

Load
Guyana syllabus and textbooks; tablets prepared and synced

Learn
One term of daily practice, AI coaching and marking, online or offline

Report
An outcome report covering usage, mastery gains and teacher time saved

Bring AI learning to every Guyanese classroom.
